

Bedale and Villages Community Plan - Environment Group

Date: 6 November 2006

Present: C Roberts, E Dunning, A Lazenby, G Drury, Y Rose, J Burton

Apologies: R Latter

Project / Priority	Developments	Action
New Allotments Short / medium term	Negotiations seem to have stalled, NYCC now have new consultants, so we are going to write to the Chief Exec to see what is happening	YR to write to NYCC
Footbridge from Bedale Station Short term	Apparently, the tenders were all over the budget so Hambleton were having a rethink. The Group discussed having a separate bridge further down the beck leading into the auction mart car park, a simpler structure but still attractive, could be a lot cheaper. We will be writing to HDC about this proposal.	YR to write to HDC
Footpath along the beckside to new car park Long term	Hopefully will be included in the Bridge Street redevelopment feasibility study. See below.	

<p>Renaissance Park / Bedale Harbour</p> <p>Medium term</p>	<p>Proposed that we write to Sir Henry's land agent suggesting that just the bottom of the allotment site - currently unusable - could be included in a feasibility study. Yorkshire Forward need to ensure that the consultants liaise with SPROUT, the Environment Agency and the Dales River Trust.</p>	
<p>Ginnels</p> <p>Short/Medium term</p>	<p>29/31 - nearly complete, waiting for the lighting to be connected and the gates.</p> <p>Ginnel - from Dawkins to the Market Place, written to HDC to establish whether they own the land. (They don't.)</p>	
<p>Street furniture style guide</p> <p>Short/Medium term</p>		
<p>Any other business</p>	<p>Transport links - there are no bus stops near to the station, will discuss with NYCC.</p>	
<p>Date of next meeting:</p>	<p>22 January 2007</p>
