

**Sustainable Development SPD**  
**Consultation Statement**

September 2009

## **INTRODUCTION**

A draft Supplementary Planning Document was subject to public consultation for 6 weeks between 19 September and 31 October 2008.

The draft SPD was accompanied by a Sustainability Appraisal undertaken independently by Land Use Consultants and their report was also subject to consultation at the same time.

All the documents were made available:

- to read or download from the Council's website <http://www.hambleton.gov.uk>;
- to view at all the local libraries and District Council offices; and
- upon request from Planning Policy (CD or paper copy).

Everyone registered with an address on the Council's database at the time of consultation was notified and copies of the document were sent to key consultees. A list of all those consulted is included at Annex 1, amounting to 2,167 individuals or organisation.

As part of the consultation a public meeting took place at the Civic Centre at 2 pm on 8 October 2008. This was a short presentation with questions and answers session covering all issues in the document. It was open to all interested parties, but especially aimed at those using the document in the future. It was attended by over 15 people, comprising mainly land owners and developers.

A public notice was placed in the Darlington and Stockton Times and Yorkshire Evening Press on 19 September 2008 and a press release was issued.

A questionnaire for commenting on the draft SPD was provided, which could be downloaded from the Council's website and submitted by email, together with an online form.

In total 34 written responses were received and these are summarised at Annex 2 with the Council's response alongside as to how the matters have been addressed, including amendments made to the draft SPD where accepted as appropriate. All representations were made available to Members of the Council to inspect and copies can be viewed upon request.

RepName	Reference	Q1 (Yes/No)	Q1 Detail	Q2 (Yes/No)	Q2 Detail	Q3	HDC Response	HDC Action
Louise Nicholson / Yullil Homes	0038-5001	NO	<p>1(1). Disagree with the guidance as it seeks to amend and shorten the zero-carbon timeframe for housing.</p> <p>1(2). Would greatly assist housing delivery if the Council signed up to the Government's ambition for carbon neutrality within the next ten years.</p> <p>1(3). The Code for Sustainable Homes has overtaken the Council's policy. Therefore a simple reference to achieving the requisite level of the Code would be more helpful.</p> <p>1(4). Paragraph 2.5 should be reworded, as it currently reads that the measures set out are the only ones that should be used to achieve the policy.</p> <p>1(5). Contradiction of the SPD aim to provide guidance in a number of paragraphs where preferred methods are set out.</p>	YES	<p>2(1). It is not clear how the targets for decentralised/renewable energy will be defined, and what is the baseline against which the targets will be validated.</p> <p>2(2). With regard to section 5, what level of information is required?</p>	<p>3(1). The adoption of sewers draining into SUDS ponds and swales is an issue the Council and Yorkshire/Northumbrian Water need to sort out.</p> <p>3(2). It is not clear how each question will be assessed and by whom and by when.</p>	<p>1(1). Disagree; The SPD aims to provide guidance on sustainable design and construction; not shorten the zero-carbon timeframe for housing.</p> <p>1(2). Noted; As signing up to carbon neutrality is a policy issue, it is outside the remit of the SPD.</p> <p>1(3). Noted; The Council took the proactive approach to press forward with development of the LDF. As a result some policies are now slightly behind current thinking. This information will be fed into a review of the LDF when this occurs.</p> <p>1(4) and 1(5). Agree; SPD should only provide guidance, expect in instances where the Council's planning policy is prescriptive of the measures to implement.</p> <p>2(1) and 2(2). Agree; For clarity, guidance on how developers are to achieve the requirements and what to submit is crucial.</p> <p>3(1). Noted; This issue is outside the remit of the SPD.</p> <p>3(2). Agree; Clearer guidance is needed on how this will take place.</p>	<p>1(4) and 1(5). Reword the SPD to be less prescriptive except in instances where the Council's policies ask for certain measures to be considered.</p> <p>2(1), 2(2) and 3(2). Revise SPD to provide clearer guidance on what needs to be submitted with planning applications and the level of detail.</p>
David Carter / Natural England	0185-5002	YES	<p>1(1). Support the guidance in the SPD as it meets many of Natural England's sustainability aims and objectives. The Sustainability Checklist will be helpful in achieving more sustainable development in the district.</p> <p>1(2). Pleased to see importance of energy efficiency/carbon emissions and welcome guidelines for use of renewable energy.</p> <p>1(3). Supportive of SUDS and other methods of controlling surface water, especially pond and wetland creation (paragraph 4.13).</p> <p>1(4). Welcome inclusion of green roofs and vertical greening, consider making reference to brown roofs.</p>	YES	<p>2(1). In paragraph 1.7 consider making reference to the Building for Life Standard.</p> <p>2(2). Consider including reference to the provision for Car Share Schemes and Home Zone Areas within developments.</p>	<p>3(1). Support conclusions and recommendations made under paragraphs 1.37 to 1.40 of the Sustainability Appraisal Non-Technical Summary and Section 6 of the Sustainability Appraisal.</p> <p>3(2). Sustainability Appraisal: Appendix 4 revise SA Objective B, should now also include the area of Environmental Stewardship (Entry Level and Higher Level Schemes).</p>	<p>1(1). Natural England's support for the SPD is welcomed.</p> <p>1(4). Agree; The benefits of brown roofs should be acknowledged.</p> <p>2(1). Agree; The principles of the Building for Life Standard will result in more sustainable developments.</p> <p>2(2). Disagree; The remit of the SPD does not cover these issues.</p> <p>3(1) and 3(2). Noted.</p>	<p>1(4). Include information on brown roofs in section 6.</p> <p>2(1). Provide a link to the Building for Life Standard.</p>
C B Cook / Whorlton Parish Council	0314-5003		<p>1(1). No comments.</p>

R Donson / David Wilson Homes	0409-5007	NO	1(1). Disagree as the policies the SPD provides guidance on have been outdated by the Code for Sustainable Homes and the PPS Planning and Climate Change. 1(2). Requirement is for new developments to be assessed against the Code for Sustainable Homes not comply with. 1(3). No reference is provided to preferred levels of the Code for Sustainable Homes as required by the PPS Planning and Climate Change. 1(4). Choice of technology should be at the discretion of the developer not as paragraph 2.34 states those which give greatest CO2 savings.	YES	2(1). Greater reference to the Code for Sustainable Homes should be provided.	3(1). The document will be invalid if it does not undergo an economic viability assessment.	1(1). Noted; The Council took the proactive approach to press forward with development of the LDF. As a result some policies are now slightly behind current thinking. This information will be fed into a review of the LDF when this occurs. 1(2). Agree; Document will be reworded. 1(3). Noted. No reference is provided as the policy updates the Code for Sustainable Homes and PPS Planning and Climate Change. 1(4). Agree; The SPD promotes a site by site approach to the implementation of the guidance within the document. 2(1). Agree; As all new homes are to be assessed against the scheme. 3(1). Noted; It is not the remit of the SPD to comment on the economic viability of the guidance within it.	1(2). Document to be reworded to reflect comments. 1(4). Revise paragraph 2.34 to reflect comments. 2(1). Include reference to guidance on the Code for Sustainable Homes.
Peter Horwood / Health & Safety Executive	0450-5004		1(1). No comments.					
Ian Smith / English Heritage	0452-5008	YES	1(1). Broadly supportive of the guidance within the SPD. 1(2). Support the use of locally sourced materials.	YES	2(1). Section 2 should include guidance on the potential impact which energy efficiency measures might have on the character of historic buildings. 2(2). Guidance should be provided on the need for renewable energy generation schemes to take account of the impact which any proposals might have on the historic assets of the district.	3(1). Within the Sustainability Checklist applicants should be given space to set out why they have not been able to meet the requirements of a specific question.	1(1). English Heritage's support for the SPD is welcomed. 2(1) and 2(2). Agree; Conservation and sustainable development have the potential to conflict, therefore additional guidance is welcomed. 3(1). Agree.	2(1) and 2(2). Information to be provided on the potential impacts to the built environment and links to be included on English Heritage's sources of further information within the document. 3(1). Space to be provided within the Sustainability Checklist on why applicants have not been able to meet the requirements of specific questions.

RepName	Reference	Q1 (Yes/No)	Q1 Detail	Q2 (Yes/No)	Q2 Detail	Q3	HDC_Response	HDC_Action
K Hale / Campaign to Protect Rural England	0489-5005	NO	1(1). Disagree; Caution is needed when applying some of the guidance within the SPD due to variations in climatic factors such as latitude and altitude. 1(2). The recommendation to plant deciduous trees as shading in paragraph 2.14 is misguided. Would also lead to shading of solar panels. 1(3). Terminology used within paragraph 2.18 is confusing - air tightness does not relate to thermal bridging. 1(4) Advice to use green walls on south and west facing walls is misguided. More beneficial if planted on north walls in Hambleton District.	YES	2(1). Where foul outpourings are known from combined sewerage and surface water systems, assurances should be provided that new development will not be connected to this system.	3(1). With regard to the large housing developments, which are built in phases will there be a re-assessment of the planning permission to reflect sustainability requirements at that point in time?	1(1), 1(2) and 1(4). Agree; The guidance most appropriate for a development should be judged on a site by site basis. The Council acknowledge that some measures outlined in the SPD may not be appropriate in some circumstances. Developers are not expected to employ all the measures set out in the SPD. 1(4). Agree; Paragraph 2.18 does not convey the information in a clear manner. 2(1). Noted. Issues relating to infrastructure are not the remit of the SPD. 3(1). Developments will be assessed at the time of planning application submission. Reassessing planning applications would have implications for the Council and developer, e.g. Redesign of plans, increased officer time.	1(4). Revise paragraph 2.18 to reflect comments.
Nicholas Beale / Tarmac Northern Ltd	0786-5006		1(1). No comments.					
Thomas Franks /	0971-5009	YES	1(1). Support the guidance in the SPD.	NO			1(1). Support for the SPD is welcomed.	
Nigel Smith / North Yorkshire County Council, Highways	0980-5010		1(1). No comments.					
RC Dales /	1161-5011		1(1). Comments not applicable to the draft SPD.				1(1). Comments noted. Site specific issues are not the remit of the SPD.	
F & P Ross /	1384-5012		1(1). Comments not applicable to the draft SPD.				1(1). Comments noted.	
CJ Bower /	1422-5013	YES	1(1). Support the guidance in the SPD.	NO		3(1). Fully support expressed view of the Sustainability Appraisal that less housing development should be directed to Stokesley.	1(1). Support for the SPD is welcomed. 3(1). Noted. Allocation of sites for development is outside the remit of the SPD. Site allocation is covered in the Council's emerging Allocations DPD.	No action required.
John P Hull /	1759-5015	YES	1(1). Support the guidance in the SPD.	NO		3(1). It is important that the guidance is interpreted in the most appropriate manner and takes into account all relevant issues.	1(1). Support for the SPD is welcomed. 3(1). Noted.	No action required.

RepName	Reference	Q1 (Yes/No)	Q1 Detail	Q2 (Yes/No)	Q2 Detail	Q3	HDC_Response	HDC_Action
Michael Webster /	1782-5016	YES	1(1). Support the guidance in the SPD.	NO	2(1). Clear distinction needed between policies the Council have control over and those which a particular course of action is advocated. 2(2). Paragraph 2.39 should recognise what are now believed to be serious problems with biofuels. 2(3). Section 5 should make reference to conservation areas and listed buildings.	3(1). Why should there be a threshold of 10 residential units? The aggregate benefit from smaller sustainable developments is important. 3(2). Paragraph 2.37 reads as though a warmer climate is to be welcomed. 3(3). In paragraph 4.6 the use of consideration seems rather weak.	1(1). Support for the SPD is welcomed. 2(1). Agree; Clear distinction should be made between what is mandatory and optional. 2(2). Agree; Guidance should be provided on the sourcing of biofuels. 2(3). Noted; Reference to listed buildings/conservation areas is contained within paragraph 5.13. 3(1). Noted; Policies within the Council's DPDs have determined the threshold. Setting different thresholds is outside the remit of the SPD. 3(2). Disagree; In the context of solar thermal systems the statement is a factual one. 3(3). Disagree; Policy does not state explicitly that directly connected areas are to be minimised. The Council can only encourage developers to do so.	2(1). Revise the wording of the document to allow for greater clarity. 2(2). Include text on responsible sourcing of biofuels. 2(3). Information to be provided on the potential impacts to the built environment and links to be included on English Heritage's sources of further information within the document.
Walker / All Seasons Lawn Turf	1878-5017		1(1). Broadly supportive of the guidance in the SPD.	YES	2(1). Re-consideration of the development limits to allow sustainable design to be incorporated into villages more easily		1(1). Support for the SPD is welcomed. 2(1). Noted. Re-consideration of development limits is outside the remit of the SPD.	No action required.
Dave Brooke / Ryedate Travel	2283-5018		1(1). Comments not applicable to the draft SPD.				1(1). Comments noted.	
Beverley Lambert / Environment Agency	2312-5019	YES	1(1). Support the guidance in the SPD. 1(2). Objective for section 4 should be more aspirational. Re-word to ensure run-off rates are reduced wherever possible to account for climate change. 1(3). Run-off rates from existing greenfield sites should be kept to greenfield rates, and brownfield sites' run-off from new developments should be reduced by a percentage over that of the existing site. 1(4). Caution the use of infiltration techniques on brownfield sites.	YES	2(1). Reference to green roofs should be included in section 4. Environment Agency guidance should also be signposted. 2(2). Include guidance on type of waste materials likely to be collected by Local Authority in residential developments. 2(3). Guidance needed on size of composting facilities	3(1). Consideration needs to be given in the document on the type of environmental permits needed for composting facilities. 3(2). No mention of encouraging brownfield sites over greenfield sites.	1(1). Support from the Environment Agency for the SPD is welcomed. 1(2) and 1(3). Agree; As flash flooding events are expected to increase in frequency this would be a sensible suggestion. 1(4). Agree. 2(1). Agree; Beneficial nature of green roofs in preventing rapid run-off should be acknowledged. 2(2). Agree; Information would be beneficial in the design of recycling facilities. 2(3). Disagree; Setting minimum standards for composting facilities would require formulation of a policy. This is outside the remit of the SPD. 3(1). Agree; Pertinent if developers are aware of the regulations surrounding composting facilities. 3(2). Prioritisation of brownfield sites over greenfield ones is outside the remit of the SPD, but is in Policy CP1 of the LDF Core Strategy.	1(2) and 1(3). Reword section to reflect comments. 1(4). Include text on caution using infiltration techniques on brownfield land. 2(1). Include signposting to Environment Agency guidance on green roofs and guidance within section 4. 2(2). Include information on recycling collected in the district. 3(1). Signposting to sources of information on composting regulation to be added.

Rose Freeman / The Theatres Trust	2315-5020		1(1). No Comments.					
Pauline Westgarth- Taylor / Sexhow Parish Meeting	2349-5021	YES	1(1). Broadly supportive of the guidance in the SPD.	NO		3(1). Guidance provided in section 6 is contradictory to section 2.	1(1). Support for the SPD is welcomed. 3(1). Noted. Developments should be judged on a site by site basis therefore some guidance may not be appropriate.	No action required.
John Lowry / The Friends of Thomborough Henges	2376-5034		1(1). Support the guidance within the SPD with the exception of the implications to the historic environment.				1(1). Noted. Issues surrounding future proposals for quarrying and land restoration are covered in other documents.	No action required.
Sara Robin / Yorkshire Wildlife Trust	2377-5022			YES	2(1). Section 4 should cross reference section 6 on biodiversity and vice versa. 2(2). Mention should be given to the beneficial effects design/planting in SUDS can have on biodiversity.	3(1). Section 6 should reference provision of green infrastructure in developments.	2(1). Agree; Guidance in both sections is complementary to the other. 2(2). Agree; SUDS can provide habitats for flora and fauna. 3(1). Agree; Increased information on this topic will assist provision and greatly aid developers when submitting planning applications.	2(1), 2(2) and 3(1). Revise to reflect comments.
Sally Allen / Tanfield Parish Plan Natural Environment Action Group	2379-5033	YES	1(1). Support the guidance within the SPD with the exception of the implications to the historic environment.				1(1). Noted. Issues surrounding future proposals for quarrying and land restoration are covered in other documents.	No action required.
Tom Warburton / One North East	2380-5023		1(1). No comments.					
Meg Hoggarth /	2381-5024	YES	1(1). Support the guidance within the SPD. 1(2). Paragraphs 2.11 to 2.24 could apply to improvements in existing buildings. 1(3). Paragraph 2.48 should include the benefits to residents of wind turbines. 1(4). Paragraphs 6.10 to 6.11 should acknowledge the maintenance costs of green roofs and walls.		2(1). Further emphasis needed on flood risk.	3(1). Encourage further public awareness and interaction with local communities on the SPD.	1(1). Support for the SPD is welcomed. 1(2). Noted. Existing building improvements are outside the remit of the SPD, although conversions are included. 1(3). Agree; Developers should be aware of the benefits wind turbines can bring to the local community. 1(4). Agree; Developers should be made aware of potential issues associated with implementing these measures. 2(1). Noted. Paragraph 2.2 emphasises increased flooding. 3(1). Noted.	1(3). Revise to include information on benefits of wind turbines. 1(4). Include information on maintenance of green roofs and walls.
Carl Bunnage / North Yorkshire County Council Business & Environmental Services	2382-5025	YES	1(1). Support the guidance within the SPD.				1(1). Support from NYCC is welcomed.	

RepName	Reference	Q1 (Yes/No)	Q1 Detail	Q2 (Yes/No)	Q2 Detail	Q3	HDC_Response	HDC_Action
John Kirkham / Persimmon Homes Yorkshire	2383-5035	NO	<p>1(1). Disagree with the guidance in the SPD as the document as it stands is likely to generate considerable argument, deter development and achieve little in the way of energy efficiency.</p> <p>1(2). If the Council is serious about reducing carbon emissions from housing it needs to address emissions from the existing housing stock.</p> <p>1(3). SPD should include a statement that passive solar design measures are endorsed by the Highway Authority and Police Liaison.</p> <p>1(4). Glazing is more important in passive solar design than orientation. Road orientation is also ill considered.</p> <p>1(5). If the Council is to continue to apply the SPD to new housing then it needs to refer to all new housing rather than being selective.</p> <p>1(6). There is an implicit assumption that all the example technologies described are cost efficient and provide proven benefit.</p> <p>1(7). External renewable energy systems can have substantial visual impact.</p> <p>1(8). SPD needs to clarify that elected members will have higher regard to provision of renewable energy when balancing objections on visual grounds.</p> <p>1(9). SPD must appreciate there is a national supply chain providing normal fixtures and fittings, and while there is still demand for these items the supply chain will endeavour to provide them.</p>		<p>2(1). The SPD should include a section on implementation.</p>	<p>3(1). The adoption of sewers draining into SUDS ponds and swales is an issue the Council and Yorkshire/Northumbrian Water need to sort out.</p>	<p>1(1). Disagree; The SPD is only for guidance and it is for developers to decide upon the most appropriate sustainable design and construction measures for their development.</p> <p>1(2). Noted. Carbon emissions from the existing housing stock is outside the remit of the SPD.</p> <p>1(3). Disagree; It is not the place of the SPD to suggest who developers should consult with on the design of their development.</p> <p>1(4). Disagree; Orientation and glazing are both valid considerations in passive solar designed development. Road orientation as numerous examples have shown can be adapted to solar considerations.</p> <p>1(5). Noted. The SPD applies to all new development except in those instances where Council policy is prescriptive on what is required and the threshold it is to be applied to.</p> <p>1(6). Noted; It is not the remit of the SPD to comment on suitability and viability of technologies. The SPD adopts a flexible approach to allow developers to determine which measures are most appropriate.</p> <p>1(7). Agree; There is potential for conflict and the SPD recommends consultation with interested parties at an early stage to overcome problems.</p> <p>1(8). Disagree; It is for elected members to make decisions on a case by case basis when provided with all the available evidence.</p> <p>1(9). Noted; This issue is outside the remit of the SPD.</p> <p>2(1). Agree; Although the draft SPD had an implementation section, more information is needed.</p> <p>3(1). Noted; This issue is outside the remit of the SPD.</p>	<p>2(1). Rework implementation section to reflect comments.</p>
John Pilgrim / Yorkshire Forward	2384-5032	YES	<p>1(1). Support the guidance within the SPD.</p>		<p>2(1). Additional guidance should be included to outline how new development will be expected to meet the transition towards the Government's targets for zero carbon development.</p>	<p>3(1). Clarify paragraph 1.16.</p>	<p>1(1). Support from Yorkshire Forward is welcomed.</p> <p>2(1). Disagree; This is a policy matter and as a result is outside the remit of the SPD.</p> <p>3(1). Agree; The paragraph needs to be strengthened to provide greater clarity to developers.</p>	<p>3(1). Rework paragraph 1.16 to provide greater clarity.</p>
Paul Carr / Halcrow Group Limited Deanway Technology Centre	2389-5031	YES	<p>1(1). Support the guidance within the SPD.</p>				<p>1(1). Support from the Highways Agency is welcomed.</p>	

RepName	Reference	Q1 (Yes/No)	Q1_Detail	Q2 (Yes/No)	Q2_Detail	Q3	HDC_Response	HDC_Action
<p>Matt Millington / Countryside Service Heritage &amp; Environment Section</p>	<p>2390-5030</p>			<p>YES</p>	<p>2(1). Amend section 6.2 to reflect changes in the number of priority species and habitats in the district. 2(2). Provide links to information on green infrastructure and biodiversity action plans. 2(3). Make links within section 6 to ecological/biodiversity requirements of the Council's Validation Checklist.</p>	<p>3(1). Sustainability Checklist: The title green infrastructure should be changed to biodiversity. 3(2). The questions on green infrastructure within the sustainability checklist should be split into two questions. Which HBAP species and habitats will your development positively effect, and Please demonstrate how your development will enhance the areas green infrastructure?</p>	<p>2(1). Agree; SPD should be as current as possible. 2(2). Agree; Increased information on this topic will greatly aid developers when submitting planning applications. 3(1). Agree; Proposed name better reflects the objective of section 6. 3(2). Agree; Provides greater emphasis on those species and habitats of importance at a national and local level.</p>	<p>2(1). Update section 6 to reflect changes in the number of priority species and habitats. 2(2). Provide additional links on green infrastructure and biodiversity action plans. 3(1). Change green infrastructure to biodiversity within the sustainability checklist. 3(2). Insert the two new questions on biodiversity into the sustainability checklist.</p>
<p>Kim Williams / CARBONREDUCTION.EU</p>	<p>2391-5029</p>	<p>NO</p>	<p>1(1). Disagree on the grounds of the SPD limiting the types of solution that will be accepted to meet the requirements of Council policies. 1(2). The Council should set targets and let developers decide how to meet them. 1(3). Unnecessary sentence in paragraph 1.10. 1(4). SPD should clearly state the level of BREEAM and Code for Sustainable Homes developers must achieve, in line with the requirements of Development Policies DPD 6.6.2. 1(5). SPD should not prescribe how to achieve BREEAM and Code for Sustainable Homes targets. 1(6). Heat pumps are not a micro renewable technology. 1(7). Other uses for solar thermal, not just water heating. 1(8). Wind turbine output is not determined by average wind speed. 1(9). SPD does not consider financial viability of options.</p>	<p>YES</p>	<p>2(1). Refer applicants to technical and strategic guides.</p>	<p>1(1). Agree; Except in those areas where Council policies are prescriptive of the measures to be used. 1(2). Disagree; Setting targets would require a change to policy, which is outside the remit of the SPD. 1(3) and 2(1). Agree; Acknowledged that more detailed guidance is available. 1(4). Disagree; SPD should only state the requisite level of BREEAM or the Code for Sustainable Homes in relation to energy. DPD Policy does not set out a level to be achieved across the board. 1(5). Disagree; The SPD does not prescribe how to achieve these standards as it is guidance not policy. 1(6). Agree; Wording to be changed. 1(7). Agree; Wording to be changed. 1(8). Agree; Wording to be changed. 1(9). Disagree; Remit of the SPD is not to comment on the financial viability of options. The site for development will determine which options are viable.</p>	<p>1(1). Revise the wording of the document to allow for more flexibility. 1(3) and 2(1). Include links to technical guidance and information. 1(6). 1(7) and 1(8). Reword to reflect comments.</p>	

RepName	Reference	Q1 (Yes/No)	Q1 Detail	Q2 (Yes/No)	Q2 Detail	Q3	HDC_Response	HDC_Action
Gudrun Gaudian /Aine Parish Council	2392-5028	YES	1(1). Support the guidance within the SPD. 1(2). All guidance should be mandatory for new development. 1(3). Does the Council have a mandatory requirement for a minimum sized garden per square metre of living space?	YES	2(1). Make it policy for gardens not to be classified as brownfield land.	3(1). The SPD should be applied to planning applications going through the system.	1(1). Support for the SPD is welcomed. 1(2). Disagree: The costs for development to adhere to all the guidance in the SPD have to be viable and may prove prohibitive. A local evidence base of need would also be required. The Council advocates a site by site assessment to determine feasibility. 1(3). No guidance exists. The Council will be recommending a minimum garden size of 4m by 4m in its forthcoming Domestic Extensions SPD. 2(1). Disagree: Classification of gardens as brownfield land has been decided at a national level, which the Council have no influence over. 3(1). Disagree: Guidance should be applied to the design of development from the outset. Applying measures at different stages of the planning process will result in delays and increased costs.	No action required.
John Derwent / North Yorkshire Bat Group	2393-5026			YES	1. Greening built development - Inclusion of provision for swifts and bats in all new buildings.		2(1). Agree: The Council's policies do not require new developments to specifically include provision for swifts and bats. However, promotion of a biodiversity-rich environment is promoted through the LDF Development Policy 33.	2(1). Section 6 to be amended to reflect the provision of features for swifts and bats as a possible means of greening the built environment.
Frank Bozic / Northumbrian Water Limited	2415-5027	YES	1. Agree with the principles of the SPD, especially those on water reduction/efficiency and surface water run-off.		1. Site Management Plans are needed to ensure SUDS measures are managed in perpetuity as well as to ensure run-off is controlled in an effective manner.	1. Suggested change to surface water run-off objective to require a reduction in run-off rates wherever possible. 2. Support the requirement for the developer to address the prevention of rapid run-off.	1(1) and 3(2). Northumbrian Water's support for the SPD is welcomed. 2(1). Agree: The requirement for Site Management Plans would require new policy to be developed. This is outside the remit of the SPD, but can be added as guidance. 3(1). Agree: Objective to be amended.	2(1). Although outside the remit of the SPD, the section on surface water run-off will be updated to reflect comment. Site Management Plans will be added as guidance. 3(1). Objective amended to reflect comment.
