

Dear Hambleton business

Further to the government's decision to amend their advice around the two-metre social distancing rule, please find enclosed some updated posters.

The posters you are already using, which reference the two-metre rule, should be replaced with these updated ones.

We have also enclosed a new floor sticker for use inside your premises which should also replace the ones you already have.

If you would like any more copies of certain posters please email [info@hambleton.gov.uk](mailto:info@hambleton.gov.uk) to log your request and we'll get them out to you ASAP.

Alternatively, the updated posters along with social media graphics and web banners are also available to download at <https://www.hambleton.gov.uk/EnjoyHambletonSafely>

It would be great if you could use as much of the materials both in your business and on your social media channels as you can, so we can speak with one voice across Hambleton and keep our residents and visitors safe.

All the very best for a swift and successful bounce back and please rest assured my team and I will do all we can to continue supporting you and our district in recovering from this crisis as quickly as possible.

Yours faithfully

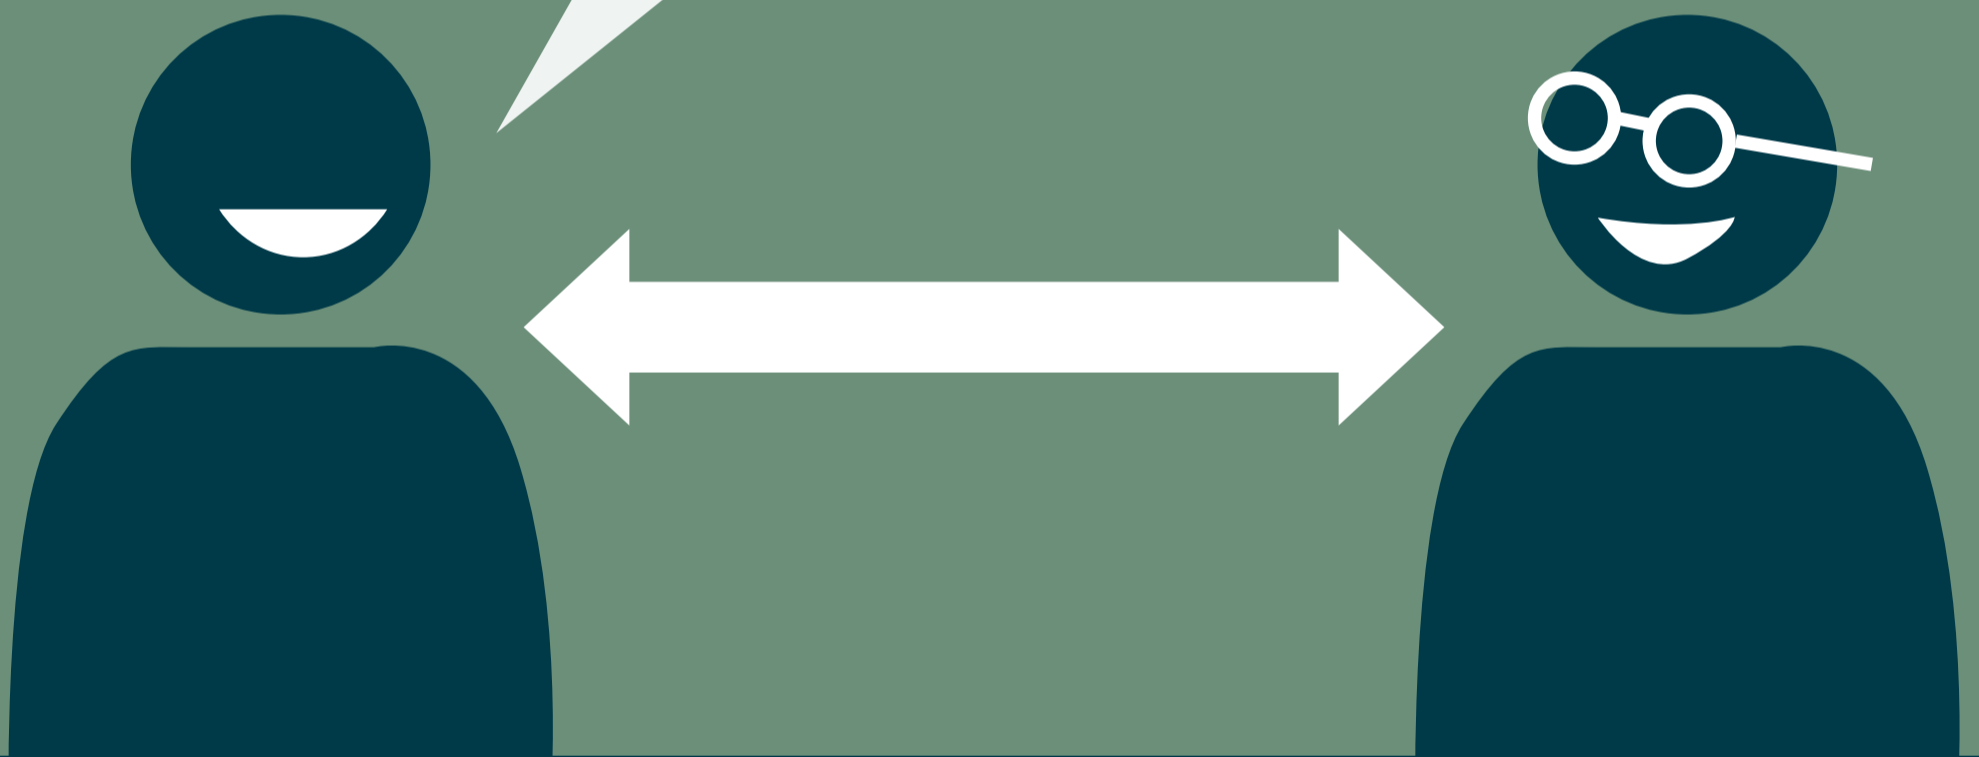

Dr Justin Ives

Chief Executive

Hambleton District Council
